# ISHITHA JAIN

+91 9025391228 ishithaac2312@gmail.com ishitha jain github-profile portfolio

## Summary

Full Stack Developer experienced in building scalable, user-focused web applications with React, Node, and MongoDB. Skilled in responsive UI development, clean API integration and shipping production-ready features. Comfortable with state-heavy interfaces, performance optimization, third-party services, and maintaining clear, reliable code while learning fast and solving problems practically in real products.

## Technical Skills

**Frontend:** React, NextJS, TypeScript, JavaScript(ES6+), Tailwind, TanStack Query, Angular, Bootstrap
**Backend:** Node, Express, Flask, FastAPI, Sentry, Clerk, JWT
**Databases:** MongoDB, PostgreSQL, MySQL
**Tools:** Git, GitHub, Postman, Firebase, Docker (Basics), AWS, Vercel

## Experience

**Impactree Data Technologies** *Jul 2025 – Nov 2025*
*Junior Frontend Developer* Chennai, Tamil Nadu

- Built the Impactree production website using NextJS, ReactJS and TypeScript improving performance and responsiveness.
- Developed dashboards with ApexCharts and modular components for real-time analytics.
- Refactored UI into reusable components reducing development time for new features.
- Integrated frontend with backend APIs ensuring consistent UI behaviour.

**HTC Global Services** *Jul 2024 – Apr 2025*
*Project Trainee* Chennai, Tamil Nadu

- Assisted in building internal tools using HTML5, CSS3, JavaScript and basic Java backend integration.
- Worked in Agile environment with Git versioning and API-driven development.

**Zidio Development** *Aug 2024 – Dec 2024*
*Full Stack Intern* Remote

- Worked on MERN-based job portal features including resume uploads and dashboards.
- Integrated frontend with backend APIs including Firebase Auth and JWT login.

## Projects

**Rubicr – ESG Data Intelligence Platform**
*Next.js, NestJS, Node.js, Express, PostgreSQL*

- Integrated backend APIs built with Node and NestJS into a Next.js frontend to fetch and display ESG data.
- Developed and maintained both admin and tenant-facing interfaces, ensuring UI consistency and shared component behavior.
- Built dashboard views to visualize normalized ESG metrics and platform data in a structured, readable format.
- Implemented a connectors page to display third-party integrations, including SAP database connections and Zoho Analytics.

**LoopSphere – Video Conferencing Room** under development
*React, TanStack Query, Node, Express, MongoDB, Clerk Auth, Stream, Ingest, Sentry*

- Built the video conferencing UI with real-time video chat and events using Stream APIs.
- Developed backend services for rooms, lifecycle events and access control using Node and MongoDB.
- Implemented authentication and role-based permissions using Clerk.
- Added background jobs via Ingest and monitoring with Sentry.

**Packet2Page – Network Analysis Reports** *source code*
*React, Flask, MongoDB, Pandas*

- Built a tool to analyse PCAP files and generate HTML JSON and CSV reports.
- Added API endpoints for PCAP parsing and charts with packet-level filtering.

## Education

**Hindustan Institute of Technology and Science** *Aug 2022 – Jun 2025*
Bachelor of Computer Applications (CyberSecurity) — **CGPA**: 9.56 Chennai, Tamil Nadu

## Achievements

- Runner Up – HACK-O-HITS Hackathon at HITS University
- Panelist – GDSC Chennai Summit on UI and CSS Techniques

## Certifications

- AWS Certified Cloud Practitioner
- IBM Full Stack Software Developer Certificate
